

Woodpeckers Home Learning – 28/11/24

Maths:

Please spend some consolidating your knowledge of the four times table. There is also some mathematics activities set if you would like.

English:

Please see attached 3 images of characters. I would like you to choose one character from these to describe using what we have worked on in class over the last few weeks.

In your description you may choose to include:

- Power of 3
- Ambitious vocabulary (you can use a thesaurus!)
- Similes
- Alliteration
- Show don't tell

Computing:

We are looking at Digital Publishing and how to make posters/invitations more inviting. Design an invitation to a birthday party (topic of your choice) combining text and images. You can do this on paper as a plan or start creating online using Powerpoint or Publisher. I would love to see some of your designs if you would like to bring them in.

PE:

In dance we are working on choreographing. Have a go at creating a motif (small routine) to a piece of music of your choice, thinking about starting and ending positions and levels.
