IMPORTANT DATES:

23/7/26 - End of summer term 2, 1.30pm

WEEKLY SNAPSHOTS!!

The children have loved exploring Scratch Jr and creating their own programmes. They have enjoyed developing their coding skills, being creative, and bringing their ideas to life.

Changes at school

I'm in Year 1 now but soon I will be in year 2. At the start of a new school year lots of things may change.		
This might include:	Different teachers and other adults	
	Different classrooms	
	Different lessons and timetables	
	Where I hang my coat up	
	The toilets I use	
All these changes may feel uncomfortable at first. It is OK to feel a bit anxious and scared at the start of a new school year. Usually these feelings will go away after the first week or two.		

Things that can help include:	find out about the changes	
	talk about any worries and ask for help	
	doing things that help stay calm	
All the changes of a new school year can feel uncomfortable at first but I will soon be OK. The adults are there to help me. I have done this before and I can do it again.
