Dear Parents

School Fund Request – 2021/2022

At this time of year, schools all around the country will be asking parents for their School Fund contribution. School Fund is set up to help pay for equipment/experiences and events which our central funding unfortunately does not pay for. Whilst we work hard at Tatsfield School to provide exciting opportunities which will enrich your child's learning and school experience, these do come at a cost and therefore your support towards School Fund is extremely important.

Last year, for example, we were able to pay for drama workshops, fund theatre groups and subsidise school visits and activities. Each year, School Fund can raise over £6,000 to help pay for these extras and as such, without your contribution, the curriculum at Tatsfield School would be less rich.

To this end, School Fund contributions for **2021/2022** are now due and we ask typical families to contribute **£30 per child** by either paying online via PMX or by setting up a standing order, sheet attached with the gift aid declaration.

Many thanks for your continued support and helping to make the children's school experience richer.

Yours sincerely

Kevin Bellinger
Headteacher
